DESCRIPTION

Mark Aluminum profiles/channel is made of sturdy anodized or powder-coated aluminum metal and has a specific design to protect LED strip and create softer lighting effect. Aluminum profile/channel is a great housing and excellent heat sink for flexible LED strips. The profiles is cover a wide range of ceiling application like Hotels, Supermarkets, offices, Exhibitions and workstations, or any other visible installations where the strips lighting is exposed. The profiles are supported by snap on covers in Clear, Opal matt and Frosted diffusers
