DESCRIPTION

Andrew LED High Bay is High quality light source. Combination of multiple high-power LEDs features. As a new type of high bay light, it distributes light by lens instead of additional reflector, which avoids the occurrence of situations like easy deformation that usually resulted from the classic LED high bay light in transportation. It's available with motion sensor as well, This is amazing performance is achieved because of the unique heat dissipation system built into the Cast Alloy casing design. With the reliability high quality Philips LED's this is a market leading product. Comfortable vision. High CRI shows the trueness of object. Optional light color meets the needs of different environments. No depression, no disturbing vision. These high bay lights meet all UAE safety regulations (CE and RoHs).
