DESCRIPTION

Conner LED high bay lights are manufactured to the highest possible standards making them an ideal item for reducing lighting bills in workplaces, warehouses or any other large establishments. The lights use high a quality Philips 3030 SMD LED chip which emits a great output of light as well as being very reliable. These high bay lights are a fantastic alternative to traditional warehouse lighting as they remain cool in use whilst significantly reducing your overheads. These special high bay lights use a high powered Philips 3030 SMD LED chip which emits over 140 lm/w, they also have an aluminum reflector which helps to direct the light correctly whilst remaining lightweight.
