DESCRIPTION

Transforming the aesthetics of modern street lighting, this innovative system merges functionality with minimalist design to bring a fresh sense of order to urban spaces. The streamlined structure integrates vertical optical modules into a sleek, cohesive form, delivering exceptional performance across a range of public environments. Specifically designed for versatility, the bollard and pole mounted luminaires offer ideal solutions for illuminating pathways, building perimeters, parks, and urban squares. Equipped with advanced micro-faceted reflector technology, they ensure superior visual comfort while meeting stringent glare control standards—setting a new benchmark in architectural outdoor lighting.
