TENDER TEXT

Supply and install Callista (LP-GDL318018-120) Decorative Pole by LIGHT PLUS UK. Housing: Die Cast Cover and Extruded Aluminum. Diffuser: Tempered Glass. Beam Angle: 45° / 60° / 90°. Color Available: Black, Gray, Any RAL Color. Lifespan: >100,000 Hours (L90 B10). Voltage: AC100~240V. LED Driver: Light Plus, TriDonic, PHILIPS, OSRAM, MW. IP Rating: 66. IK: 08. Or equal and approved.

DESCRIPTION

The Callista meets the need for scenic and flexible, as well as discreet, larger scale illumination in a range of applications from public parks, urban squares, city centres and ocean fronts. The aesthetic design has the same subtle sculptural appearance, complementing both modern and classic urban spaces. Callista is high quality LED Chips. Driver with 0-10V/DALI/Programmed options, and with surge protections up to 20KV. Based on the same design language and basic idea, one single asymmetric carving opens up for the light. The distinctive carving gives the luminaire character, while also serving as a dimming reflector, softening the light and making it more pleasant in the dark of night, while also directing it precisely where needed.
